Attendance at a pre-inspection meeting is not mandatory.

A pre-tender inspection can be arranged at the request of the Tenderer by contacting the nominated Contact Person.

The site inspection may provide Tenderers with the opportunity to clarify any uncertainties with the Contact Person prior to the closing of the tender.

1.7 EVALUATION PROCESS

This is a Request for Tender (RFT).

Your Tender will be evaluated using information provided in your Tender.

The following evaluation methodology will be used in respect of this Request:

- (a) Tenders are checked for completeness and compliance. Tenders that do not contain all information requested (e.g. completed Offer Form and Attachments) may be excluded from evaluation.
- (b) Tenders are assessed against the Selection Criteria. Contract costs are evaluated, e.g. tendered prices and other relevant whole of life costs are considered.
- (c) The most suitable Tenderers may be short listed and may also be required to clarify their Tender, make a presentation, demonstrate the product/solution offered and/or open premises for inspection. Referees may also be contacted prior to the selection of the successful Tenderer.

A contract may then be awarded to the Tenderer whose Tender is considered the most advantageous Tender to the Principal.

1.8 SELECTION CRITERIA

The Contract may be awarded to a sole Tenderer who best demonstrates the ability to provide quality products and/or services at a competitive price. The tendered prices will be assessed together with qualitative and compliance criteria to determine the most advantageous outcome to the Principal.

The Principal has adopted a best value for money approach to this Request.

This means that, although price is considered, the Tender containing the lowest price will not necessarily be accepted, nor will the Tender ranked the highest on the qualitative criteria.

A scoring system will be used as part of the assessment of the qualitative criteria. Unless otherwise stated, a Tender that provides all the information requested will be assessed as satisfactory. The extent to which a Tender demonstrates greater satisfaction of each of these criteria will result in a greater score. The aggregate score of each Tender will be used as one of the factors in the final assessment of the qualitative criteria and in the overall assessment of value for money.

1.8.1 COMPLIANCE CRITERIA

These criteria are detailed within Part 3 of this document and will not be point scored. Each Tender will be assessed on a Yes/No basis as to whether the criterion is satisfactorily met. An assessment of “No” against any criterion may eliminate the Tender from consideration.

1.8.2 QUALITATIVE CRITERIA

In determining the most advantageous Tender, the Evaluation Panel will score each Tenderer against the qualitative criteria as detailed within Part 3 of this document. Each criterion will be weighted to indicate the relative degree of importance that the Principal places on the technical aspects of the goods or services being purchased.

NOTE: It is essential that Tenderers address each qualitative criterion. Information that you provide addressing each qualitative criterion will be point scored by the Evaluation Panel.

Failure to provide the specified information may result in elimination from the tender evaluation process or a low score.

1.8.3 PRICE CONSIDERATIONS

WEIGHTED COST CRITERIA

The weighted price method is used where price is considered to be crucial to the outcome of the contract. The price is then assessed with quality.

Criteria	Weighting
Tendered price	50%

1.9 PRICE BASIS

All prices for services offered under this Request are to be fixed for the term of the Contract. Tendered prices must include Goods and Services Tax (GST).

Unless otherwise indicated prices tendered must include all applicable levies, duties, taxes and charges. Any charge not stated in the Tender, as being additional will not be allowed as a charge for any transaction under any resultant Contract.
